LITURGICAL DESIGN CONSULTATION MASTER PLANNING

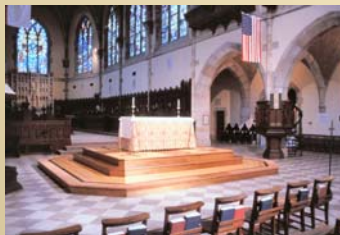

Nave after installation of Altar Platform

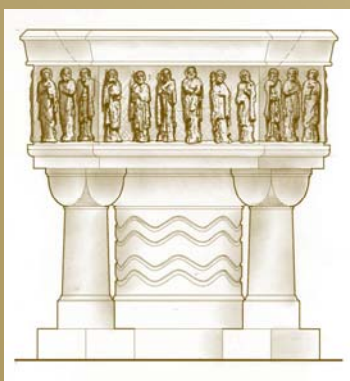

New Inlaid Marble Chancel Floor

New Chapel Chair Design

Removable Altar Platform

New Baptismal Font

New Chancel Floor Pattern

## ALL SAINTS' CHAPEL, SEWANE, THE UNIVERSITY OF THE SOUTH

Sewanee, Tennessee

Completed 1989-2004

In 1989, our office began a relationship with All Saints' Chapel at the University of South when a free-standing altar platform was designed and constructed for the nave of the worship space. Since then, we have continued design work with the installation of a patterned marble floor in the chancel and a baptismal font for the nave. A ramp was created in the ambulatory to make the chancel accessible for the disabled. We designed the new interlocking chairs used in both All Saints' Chapel and adjacent St. Augustine's Chapel.
