TRINITY EVANGELICAL LUTHERAN CHURCH

Lansdale, Pennsylvania

Completed 1999

This project involved the total renovation of the interior of the existing church as well as the addition of transepts and a chapel which substantially increased the seating capacity of the worship space. The chapel was located so that large glass doors can be opened and the chapel can serve as overflow seating with good sight lines to the chancel and choir. The chancel and choir furnishings are movable to provide for maximum flexibility. All new classically detailed chancel furnishings were designed including a new white marble font. A new lighting system was designed to provide better reading light as well as increase the focus on the chancel.

(Local Architect: Bower Lewis Thrower Architects)
